DORMA Glas

Center Lock & Strike Housing

DORMA Center Lock & Strike Housing

The DORMA Glas Center Lock and Strike Housing is a sleekly designed lockset measuring only 5" x 9". This new lock incorporates the technology built into the DORMA M9000 Heavy-Duty Grade 1 Mortise Lockset, which features advanced design concepts for extreme reliability, with high strength springs and a positive stop to eliminate lever sagging.

Product Features

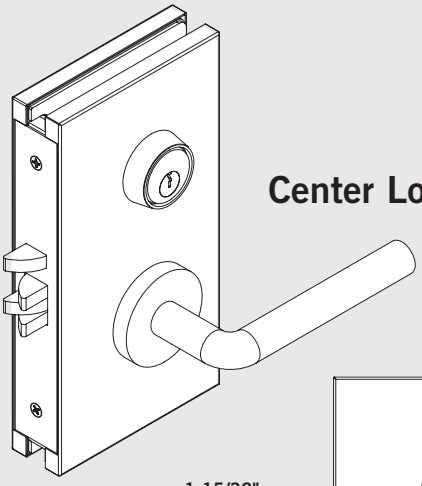

- Conventional mortise cylinder, standard, Type D, KD (Keyed Differently). Other cylinders are available as options.
- Latch bolt operated by lever on either side, depending on the inside lever function ordered.
- Wall strike available for applications that do not require housing for the strike.
- 10 year warranty on the DORMA M9000 Lock.
- 2 year warranty on the housing.
- Multiple keying options available direct from DORMA.
- Quick lead times.
- Satin Stainless Steel finish.

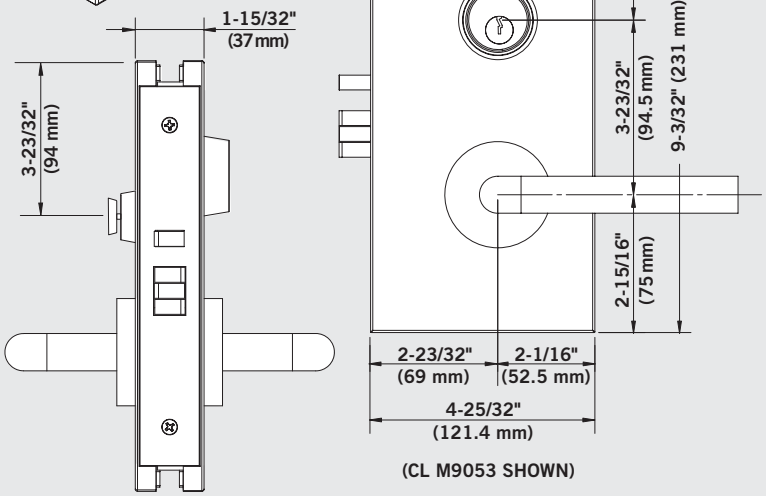

Recommended Applications

- Office fronts/Office space
- Retail
- Hospitality
